

CHANNEL INCENTIVE CARD PROGRAMS ENABLE. MOTIVATE. GROW.

Channel partnerships are a high-impact strategy for growing your business. Channel partners boost sales, decrease time to market, and provide significant competitive differentiation.

If you sell your product through a network of distributors or retailers, an effective channel incentive program can influence behaviors that drive partner sales behavior, maintain brand mindshare in a competitive channel, and ultimately drive incremental revenue.

In many industries, channel incentives are table stakes - if you don't have one, your competitors do.

Despite their potential to improve channel performance, incentive programs often fail to live up to expectations. Successful channel incentive programs are not "one-size-fits-all," so understanding the motivational factors that entice partners to sell your product is crucial. To achieve significant partner performance growth, channel incentives must be easy to comprehend, intuitive, flexible and fast.

Whether you are managing your channel incentive program with spreadsheets, a more complex solution, or simply do not have one, JNR's proprietary Channel Incentives Platform can offer you a simple, nimble, yet powerful tool to deploy an effective program.

By making it simple for administrators to create complex targeted promotions to incentivize all participants, JNR's incentive platform is an influential sales growth solution. From data validation and processing, promotion management, reward fulfillment, and customer service, our platform allows you to step away from program management and focus on your company's continued growth.
